

## A Summary of Deen City Farm

We are educational resource & community project showing an urban audience where their food comes from. We do this through organised participation (particularly for those who need support), escorted visits around the Farm & outreach to local schools. We get people involved and contributing in their community, irrespective of their background or abilities.

The Farm is based on 5 acres of National Trust land (part of Morden Hall Park) which is leased to the London Borough of Merton.

The project is very accessible (including being free of charge to visit) and offers services such as:

- Riding lessons (including riding for the disabled)
- Farm Tours
- Incubator Hire
- Farm Club
- Volunteer Programme
- "Green Fingers" Garden Tours
- Work with Community Mental Health teams
- Pony Club
- Holiday Programmes
- Farm Shop and Café
- Animal (Pet) Boarding Service
- Environmental Workshops
- Team-building / Corporate Volunteering Days

... as well as having all manner of livestock (goats, cows, sheep, pigs, alpacas, geese, ducks, chickens, rabbits, horses, guinea pigs & ferrets) on view for the public.

The organisation relies on income from its services, donations, the local authority's annual grant & support of charitable trusts/National Lottery.
